

A.R.S. § 41-511.04 The State Historic Preservation Office (SHPO) has been tasked with keeping a list of Arizona’s Historic Cemeteries. The list will reside in the SHPO office.

There are many dedicated volunteers across our state that have researched and filled out forms so that cemeteries and gravesites across the Arizona might be recorded. The attached table is a current list of those cemeteries documented.

This is a very basic list, which includes county, cemetery name, and city. The forms (some with photographs) are located in the SHPO office for storage and research purposes.

Column headed with “50 +”

- √ The data shown is a column for those cemeteries that are 50 years old more
 - Documentation of cemetery age
 - Date on a grave marker or cemetery gate

Column headed with a “?”

- √ There is reasonable evidence the cemetery or gravesite is over 50 years old, but nothing can be found to document its age. Some indicators are:
 - Appearance of the cemetery or gravesite
 - Local information (anecdotal)
 - Location and/or name of the cemetery or gravesite

Column headed with “New”

- √ Forms received for cemeteries that are not old enough to qualify
 - Some of them only have a few years to go before they will become eligible to be listed as historic.
 - Some need additional information to make any sort of determination

We are always looking for additional information on a cemetery already on our list including photographs. There are also cemeteries and gravesites out there for which we haven’t received a form. Our goal is to have a list of all the cemeteries and gravesites in Arizona. We could use your assistance. If you want to help or know of a cemetery or gravesite that has not been documented, please contact us for the forms used for documentation.

The submitted cemetery forms are available for research at the SHPO office. Any further questions may be directed to:
